Re: Get Set Read! Program at Project Hope

To Whom It May Concern,

I would like to thank the Literacy Project Foundation for allowing us to have Kathleen Hurst teach the program "Get Set Read" in my classroom. I teach a class made up of 2nd, 3rd, and 4th graders. Kathleen came in at the beginning of the school year, July 6th, and has been able to take small groups of 4 or 5 and has worked hard to improve their skills in phonics and reading. In just a few weeks, I have noticed an increase in their skills. I am especially appreciative that the "Get Set Read" program has been provided to Project Hope free of charge. The Literacy Project Foundation has made such a difference because the students practice phonics and reading in a fun nonthreatening environment. For students that are behind in school, playing a game with their peers and a facilitator, such as Kathleen, really allows them to make great gains.

Thank you again for making such a difference.

Sincerely,

Patricia Helton
